Rev. Johnnie Mae Hawkworth

Regarding my mother's claim that my father was "framed," and her claim that Carl C. Booth was the guilty party (even being the reason he murdered her...and killed her husband not expecting him to be at home that Monday morning, March 30, 1935): I quote a letter written by an aged relative, a distinguished woman, living in Eagle Lake, Texas, dated April 17, 1941: (P. O. Box 812, Eagle Lake, Texas) "Dearest Johnnie Mae and Victor (my father Victor Wason Hawkworth): Just a line, my dears, to tell you how much I enjoyed your little visit; and how much I appreciate all the sweet thoughts of your kind hearts. Yes, our mutual love for each other is the tie that binds more closely to us the living presence of all our precious ones in heaven whose spirits forever dwell in the sacred memory's hall of our souls. And though we miss them and yearn for them, O, so much, we still rejoice in their ecstasy, their unutterable happiness in that land where there's no more suffering or tears: and where they were waiting for us.

And, Johnnie Mae, in your sweet inimitable way, in those few reminiscent mementos, you seemed to bring them all into our midst even more than ever.

"Hence we must banish all the unpleasant things from our minds which we know are only fabrics of the visions which originated solely in the evil minds of Satan's followers. And I want to tell you, honey, that when I was in Dallas visiting Luellie Korthouser Newman (her daughter), which time you may remember (I do, for I went with mother to see Cousin Florence Korthouser), that your dear mother, Gertrude (Ralston Hawkworth), told us all about how your father was "framed." I've even forgotten some of the details: but the point is, that Victor was innocent, an innocent victim of circumstances...all, of which you, of course, know. I have seldom mentioned it, but since you mentioned about your Austin experience (with Congressman James Buchanan of Breham, Texas...whom Johnson followed into Congress), I wanted you to know that I saw how unjustly their accusations had been, both as regarding Uncle Steve (Stephen F. Austin Hawkworth) and your father. Gertrude was a wonderful woman, too, and I loved her dearly.

And as I told you, the erroneous reports about Uncle Steve that you mentioned were instigated by false and wicked political enemies. He (Uncle Steve) was indeed the very soul of honor and high principles. Even his admiration at one time for Ingersoll's expressions, was based entirely on the beautiful language in which his ideas were clothed, and not his ideas.

O, I am so proud of all our family (Hawkworth family). I hope your plans for a permanent home for Victor will materialize soon. That will indeed be wonderful, and I think you are a wonderful girl to want to do it. (I was in the process then of purchasing the Breham Country Club property.)

I hope, too, that you received the carbon copy I sent you of the memorial tribute to all our departed ones. I won't forget my promise to write you the prayer book when and if I am physically able to do so. Am not much account, am afraid, for much of anything, but to give you all my love and heart wishes. Love to all the family, Lovingly, Cousin Florence Korthouser."

You see, it has always been my claim that my mother wished to turn over to me the evidence she had gathered so carefully regarding my father's estate for which she was administratrix for...and she could not let her sister, Mrs. Nettie Mae Booth, know what was in her mind as she asked that I send for my father shortly before her murder...when she sent my younger sister Edith to me it was my understanding that someone was threatening to harm her if my mother did not do such and such at the courthouse...and through this sister I learned it was Carl C. Booth who was threatening mother...to such an extent that mother's second husband had insisted the telephone be removed to prevent my mother's being tormented with calls during the night. Mr. Anderson told me on March 28, 1935 he thought the man mother meant was my father (her first husband) and when I told him it was not, he was indeed glad. He said that on account of believing it was my father he had felt it was not his right to intervene...but since it was evident that it was Carl C. Booth he would take steps to prevent further harassment. (The next day, Sunday, my Aunt Nettie Mae and my first husband (Marshall Ambrose Watson) went through all of mother's things to search out for weapons, for Booth said my mother was dangerous...and so her pistol was taken to the Booth home...the first time she had been without it for years...and there is other testimony recently from H. A. Watson that another gun appeared...and I have suggested that Anderson could have gone after one when he learned mother's pistol had been taken...I know he suspected Carl Booth! for we talked of this thing...even as I talked to him almost two hours on Saturday, March 28, 1935.

But this woman's letter in her own handwriting proves that mother believed my father "framed" and she freely accused Carl Booth of the act...there was known animosity between the two...but on account of my Aunt Nettie Mae my mother was secret around Aunt Nettie Mae...and this was far from true cause Aunt Nettie Mae Booth to have suspicions of Mr. Anderson...and this was far from

Subject: Communism - Carl C. Booth, 3081 Bennet St., Dallas, Texas

My letter to you, dated March 29, 1951, relating to the late General Douglas MacArthur, came to my attention as I am transferring files, making them more accessible for my ongoing research. In this letter I had advised you concerning the LORD's showing me that Mr. Arthur fulfilled Rev. 13:1-8. At that time I called him the "Anti-Christ." This was due to teachings of man; for John assures us there are many "anti-christs." I wrote you that the LORD had told me to advise Truman what the LORD gave me regarding MacArthur on the night of March 25-26, 1951. You recall that Truman "fired" MacArthur April 11, 1951. (At 11:00 on April 1, 1951, the Carrie Nation Liquor-store trick was played on me in Brenham, Texas and I have always believed it will be proven this was caused for the purpose of discrediting in the sight of President Truman, being as he was taking seriously what I had written to him as "Thus Saith the LORD." I had been so right before that time regarding prophecies of his life being in danger, etc.)

(I also have in my files, under the name of "MacArthur" a newspaper clipping, dated LONDON March 26, 1951 by UPI, asking: "Authority Exceeded? Europe Press Flays MacArthur -- MacArthur Under Fire." (Believing this article is of interest at this time for review, I quote further, as follows:

"British and French newspapers of all parties, including the organ of the British Labor government, loosed a blast of criticism at Gen. MacArthur Monday for his latest declaration on the Korean War. Some said he had exceeded his authority. Some said he had flouted the United Nations. Some said he may have wrecked a plan for a new approach to the Chinese Communists

"(In WASHINGTON informed sources said the State Department has asked the White House and Defense Department to curb Gen. MacArthur's authority to issue announcements carrying strong diplomatic overtones.)

"MacArthur said in a statement issued in Tokyo Saturday that the Chinese Communists lacked the industrial capacity to wage modern war. He said they faced the risk of collapse if the UN decided not to contain the war in the area of Korea.

"He offered within his authority as UN military commander to confer with the enemy commander in chief on military means by which 'the realization of the political objectives of the UN in Korea....might be accomplished without further bloodshed.'

"A plan for a new approach to Communist China may have been wrecked by Gen. MacArthur's latest move in the Korean War,' said the London Daily Herald, organ of the Labor government. 'Gen. MacArthur, wearing his self-tailored mantle of pro-counsel, coupled his invitation for a truce with an implied threat of an extension of the war into Communist China itself.'

"It is clear, the conservative Daily Telegraph said, that the State Department in Washington is 'once again very annoyed with Gen. MacArthur.'

"The (UN) General Assembly becomes embarrassed, resentful or partly incredulous when Gen. MacArthur...speaks again of carrying the war to the Chinese mainland,' the Independent London Times said. "...he cuts across nearly everything that has been said and done at Lake Success for the past six months.'

"MacArthur roused the British Communist newspaper Daily Worker to ask: 'Who the hell is MacArthur that he should claim any such functions?'

"MacArthur's offer, supplemented with hardly veiled warnings and threatnings, runs the risk of upsetting the whole situation by giving rise to Chinese suspicions,' said the Conservative Paris newspaper Olgaro. 'Had MacArthur wanted to kill the egg, he could have done it no better.'

"The conservative Le Monde said the declaration was "especially inopportune.' The SOCIALIST Le Peuplaire said his attitude was one of 'war with China or I resign' and committed that the latter alternative 'would be welcomed by many.'")

(What a pity that those who land MacArthur even yet do not review the circumstances of those days, comparing with present-day situations...should a general seek to take the Vietnam war responsibilities upon his shoulders!)

New what is supposed to have happened was that a duplicate issue was said to have been made of a certain oil stock...and Booth made the duplicate issue while my father was ill and away from the office. It was a "Wizard Oil Company" who filed most of the \$50 dollar charges relating to duplicate stock. I remember one man's name connected with that company as being Skillern...who later owned a chain of Skillern Drug Stores in Dallas...there were other prominent men, whose names I have, etc. My Dad said that all he needed was one day at the office, and he could prove what had happened...and Booth was determined that Dad would not return to the office and uncover his act of duplicity. Later, officials of Wizard Oil Company were entertained in the Booth home, and my Dad walked in on the group. I think there is a way of checking up on that oil lease, seeing who got the \$3,000,000 my father was cheated of, etc.

One thing I do recall the LORD told me of...He told me that if my father had been permitted to sell that lease, obtain the \$3,000,000 cash that he would have become rich and famous, and would have accumulated masses of wealth...that his name of Hackwerth would have sprung up into prominence...that if this had happened, the LORD would not have been able to accomplish his secret work...the work being of producing a woman to confound the wise...such a woman being made to seem so very foolish, etc. When I understood this, learning it was the perfect will of the LORD for my father to be degraded and kept down all his life, etc., I wept very bitter tears, as I recalled his life and his disappointments and trials...yet always cheerful and his hope never lagging! And at the same time the LORD told me the enemy had slain my mother and her second husband; that Carl C. Booth had done this deed...and in time the LORD would show me the reasons therefor. I can understand all of this so much better now...for how much better to go down into history as the father of one ordained by the LORD...even the seed being hidden in my father's giver...how much better that...than to possess great wealth! And it was from my mother's womb I was taken by the LORD...how much better to go down into history as being the mother of one anointed and foreordained...even that one whom God declares to be his servant "O Israel" with a work out for such a one as I am...the woman given birth by my precious mother...how much greater this is than to amass wealth, then be forgotten, etc.

Now, regarding Carl C. Booth: the last I heard of him was when I called my aunt, Nettie Mae Ralston Booth, to say to her that the LORD had told me to tell her to be very careful...that her life was in danger, etc. At the time she told me that she was planning to move back into her place on 2121 Bennett Street...that "Uncle Carl" was suffering from arthritis. I let her know plainly that the danger would come from him. Then my sister in Albuquerque wrote me last week she had heard from "Aunt Nettie Mae Booth." (My sister was sixty years old on Feb. 14, 1967...Aunt Nettie Mae's birthday is on Feb. 13th... Carl Booth, as the informant on my mother's death certificate gave his wife's birthday of Feb. 13th as being that of my mother...showing how he connected the two of them together in his mind at that time of March 30, 1935.)

I do believe that Carl C. Booth has in his files or hidden papers the story of Kennedy's assassination...that even he has hopes of becoming famous (after death?) of being another Booth responsible for a President's assassination, even as I have heard him say he wished he had been the Booth to murder Lincoln...claiming that Booth escaped and was related to him...that he lived out his life in Chappell Hill, Texas, or something or somewhere like that, etc...that the Catholics had been behind the murder of Lincoln...and I know that Booth had an affinity for Catholic priests, etc. I know there was a connection between the present Sheriff Bill Decker and Booth, even with the late Ed Cobb who was County Clerk in Dallas...he worked with my mother in the Courthouse up to her death in 1935...Decker ran the elevator...and mother used to say the two of them (Decker and Booth) entered her office at night and changed the land records, etc. (Even recently I learned how fierce the Dallas Morning News is in taking up for Decker. And Captain Will Fritz investigated my mother's murder...he knows the story of Carl Booth; and he also was responsible for things concerning Kennedy and Oswald!)

I re-read where the LORD told me He would reveal Booth as my mother's murderer, and bring all these hidden things to light. I think the truth will be that both my father and mother were to be put out of the way, as well as myself...this began with ruining my father...then murdering my mother and her second husband...I know Booth was responsible for both acts...but to trace it through him to the "communist" plan for world conquest did seem to me too far-fetched...now it seems most reasonable. I think it was Booth who had me shot at so many times via a foreign-made long distance rifle...and the LORD saved me each time.

I know the Bible plainly declares that Eisenhower is involved...that he had me taken away...that he had intelligence with them who turned from me...that he caused Johnson to be set up in office, replacing Kennedy; and there had to be consideration to carry out orders!

Booth was absolutely obsessed with the case of Bonnie Parker and Clyde Barrow...he kept life-size photographs of them in his garage on Bennett Street...would display them at his "Mormon" church in West Dallas where he said they were brought up...he was obsessed with Lincoln's murder by Booth, etc. Understand now he claims to be a Baptist preacher.

In that letter to you I also wrote this: "Now I recall a visit up to Dallas (January 1946 when Stanley Marcus and Mr. Neiman acted so strangely when I was in Neiman Marcus) where my husband (Edwin Henry Shaulter) and myself stayed in his (Booth's) home. He is the husband of my mother's sister. The address is 2031 Bennett St., Dallas, Texas. One morning he took my husband with him to collect on Zero-plates (refrigeration). I went with my aunt, who is a precious person and unaware (seemingly) of his misdeeds, I believe. My aunt spoke some of a horrible dream she had had--that she dreamed of blood, blood, all night long--so we both bowed our heads in prayer in the car before starting off, asking the LORD to protect us.

That afternoon my husband came home shaking all over. He said he had never had such a terrible time in all his life. He said the steering wheel of the car driven by Booth came off on top of a hill, and he said he had felt like he would be killed any minute. But none of us suspected anything deliberately. However, the aunt's dream would indicate that it was on purpose.

"Due to the fact that later (March 1946) this man stole all my personal records, husband's insurance policies, and every record of identification was taken (plus my mother's diary in which she had expressed hatred for Carl C. Booth), and then tried to have me confined in an asylum, would indicate he had plans. All the real happenings are in the letter to the District Attorney which I do not now have time to copy.) (What I am doing here is surmising on his connection with the communists.)"

Now, I do believe that Eisenhower thought Kennedy would carry out his plans more so than would Nixon...that Eisenhower was working desperately to form the United States of Europe...that in some manner I influenced Kennedy's acts...even regarding the Cuba matter especially...that Eisenhower was made at me...even as indicated by the 1966 and 1960 arrests...to get his aims accomplished meant more to him than anything else...that he is the second beast of Rev. 13:11...that Kennedy is the star who fall, according to Rev. 9:1...that a number of things went into the plan to get Kennedy out of the way...one thing was that he was listening to me...Eisenhower believed Johnson would better carry out his plans...when it seemed certain that Johnson would be dumped by Kennedy...then to get rid of Kennedy and cause the stepping into the presidency by Johnson...then Johnson's ordering my arrest to get me out of the way (after I had run in 1964 for Governor of Texas) while he ran for the presidency...all these things are to be taken into consideration...even as the Bible states Johnson is that abomination that maketh desolate set up Nov. 27, 1963...wait 1,338 days...time can be shortened...otherwise up about July 27, 1967 (about five more months to wait) (Dan. 12:13)...then Johnson being the one taken out of the way, then Eisenhower will be revealed as that "man of sin." And he will be destroyed out of the limelight he has been banking in so favorably...and it will be the words put in my mouth by the Lord that reveals his wicked deeds, etc....the I will be commanded of God to rise up into ruling power...according to Isa. 47 Mrs. Johnson, having become a widow and knowing the loss of children in one moment of one day, will be ordered to vacate the White House...being told she is not the true feminine eagle she thinks she is, etc....and it being known that Jesus returned, whose my form to indwell...that it is my shield upon whom his government rests...that Eisenhower's world government will never rest upon the shoulder of his son John, nor that of his grandson, etc. The one-world government, as planned, will fail...and Israeli (Palestine) will be dissolved, as will NATO and UN, et al. America will be that great nation made strong by the LORD! Then it be our duty to help those who bless us, but be a curse to him that curseth such great nation ordained of God in the place ordained for God's people Israel, as God told David of, which is recorded in 1 Chron. 17. And I am the "house" build by Jesus who is the seed made of the sons of David as promised! thus fulfilling the Judah covenant! I am the 8th day in person! even the woman Zion, who is new Jerusalem, the servant of God, (O Israel)! and my work outlined for me in Isa. 49! And Johnson is Lucifer of Isa. 14...his fate registered therein...and because of what is written, I think his grandson will be a boy, called a son! He is the king of the bottomless pit, even being A-bad-don - A polly on! (When will America wake up as to his true identity, realizing the times we are now living in...the time of Jacob's trouble. And who gives Jacob trouble? Why his twin brother's descendants, Edom-Esau!)

Now, as before stated, on September 2, 1964, in Houston, Texas, the Secret Service agent, Earl Wilson, had furnished the County Attorney's assistant, Ed Wallace, my copies of letters written by me (only handwritten ones not referring to religion were used) and the jury told that I had inherited insanity from my mother who killed her husband and then herself.

March 4, 1967

Rev. Johnnie Mae Hackworth

She told me that all her life she had never tasted wine or any alcoholic drink... that her son-in-law (Carl C. Booth, a Mormon preacher) told her she should drink a little wine for her stomach's sake... and that he read this to her out of the Bible... his Mormon Bible. She wanted me to confirm that this was in the Bible... would I read it to her please. And I read it to her. Then she pointed to a bottle of wine on a shelf in a corner behind her bed... or to the far side of her bed... saying that every night just before she went to sleep that Carl Booth would come in, measure her a drink from the bottle of wine... talk with her awhile... that she protested but he said it was only right for her to obey the Scriptures... and something about his being the head of the home, etc. She was very uneasy about the whole thing... frankly, she was worried! I asked her if I could see the bottle, and I stepped to that side of the bed to pick it up. She went into a type of panic, saying, O, No! Carl made me promise that no one could touch it except himself... that under no circumstances was I to let anyone handle it, etc... or give it to her... she was to skip it if he did not appear in time to measure out her portion to her, etc. (Another aunt, Leslie Ralston Ross was a witness to all of this, as was another.)

Shivers just raced themselves up and down my spine. There was no doubt in my mind whatsoever but that that Booth was giving my grandmother daily doses of wine containing arsenic. I kept telling myself I should use good judgment... that I should not frighten my grandmother... but that I should protect her. How I wanted to say something to Aunt Nettie Mae... but I knew she would not believe me... and certainly my husband (E.H.S.) would not believe me. When I came home I reported by letter to the proper authority what I had found; then the LORD comforted me, saying my grandmother had lived to a ripe old age... that I was to leave all things in his hands... that He would have justice, etc. My grandmother (Mrs. Charles Samuel, Anne Boynton, Ralston, died on January 25, 1953, in the Carl C. Booth home... and was buried in Brenham, Texas. When we were sitting at the cemetery, my husband (E.H.S.) was on my right, and Carl Booth was on his right; the LORD said to me that the feet of him who murdered my mother was resting on the cradle of her grave. Startled I looked down, and both the feet of Shauler and Booth were resting on the cradle of the grave. By this I knew Booth was guilty... thus he not only murdered my mother, but his wife's father, too! I also believe he was guilty of running down his own father and killing him in a hit and run accident.

Further, babies born to my Aunt Nettie Mae Ralston Booth died at birth; then she had a baby to live, and we called "Maycarlene" by the name of Kewpie. But I heard a rumor, after returning to Brenham, that this was not the baby given birth to by my aunt... her baby died, and this baby was substituted. My own father believed the baby was adopted... and I remember something my own mother said in regard to same. I love Kewpie, but I doubt if she has either Ralston or Booth blood in her! I do not know if there is any doubt about this on my aunt's part. I also believe I can point out in Brenham who her real father was! I simply do not believe the LORD would let live a descendant of Carl Booth's by my aunt... and I wonder if one day my beloved aunt will "wake" up to what has been going around her all her grown life! I know what I would do if I were in her "shoes." I would go to the F.B.I., ask for a search of her husband's possessions, ask for protection... and I would not permit him to be around one day longer... I would do my utmost to prove him either guilty or not guilty? If I seem cruel, it is a wonder to me what is best for her... be killed as her mother was... or as my mother was... let our family suffer the disgrace heaped upon us by the actions of Booth... or protect myself by leaving, or seeing that he does. I love this sun dearly... I sorely miss her... I wish we could again enjoy the close relations we once had... under the circumstances this is impossible... and in some manner I think she has her suspicions regarding my mother's death and her own mother's death.

I remember when I discussed all of this with Captain Will Fritz, of the Dallas Police, and he remembered so vividly how Booth was standing on the lower front porch when the Police drove up, and Booth said he was with the family... he knew there were two dead bodies upstairs... yet he was not with us (the family) when we discovered the murders... yet he told the police he was... and then he told us he had come out with the police, riding in the car with Captain Will Fritz... and Fritz decides this... and I for one know he came up the stairs with Captain Fritz, et al. Captain Fritz said that no murderer was content with getting by with "the perfect murder" - that he would try again, etc. After this, Fritz suffered a gun shooting in which his own hand was injured, even as he had explained to me how Booth's hand was shot up... I wonder what Booth had to do with Kennedy's assassination -- I fervently hope that it will not be my own aunt's murder-death that will cause him to be caught! I think he is a likely suspect... and I am of the opinion that the Dallas Police do wrong knowingly if they do not follow through on these murders which I lay at the door of Carl C. Booth in the name of my LORD, even Christ Jesus! And what about you, F.B.I.? Even what about the Secret Service? Why go after "Will-o'-wispes?" - even letting the Warren Report give out such reports as the one wherein it is certain I am the "Houston" woman accused... accused... but how may prove my innocence? Thus my trust in the LORD will bring all of this to the light for truth!

the truth. Mrs. Booth ought to wake up to the fact that her own life is in danger...and she should act if she values her life. As it is, I am to my family seemingly one who suffered a nervous break-down on numerous occasions...one to be pitied and kept away from...one whose mother was deranged...and even my father being "questionable," whereas both of my parents were honorable people...and much injustice suffered by them, as well as by me...and were it not for a just God in ruling power, I would say I have no chance for any kind of a favorable future...but being as God does rule, and being as God has lead me thus far ever step of the way, I know all of these false things will be cleared up...and I will live on forth and be the one ordained of God, even as He has promised for such a time as these days!

What interest is all of this to the government, one might well ask?

On March 30, 1965 (forty (40) years from the date of the murder of my mother) I wrote:

"This information is prepared for the purpose of reevaluating the circumstances I find myself in, with the view of seeking justice and understanding, if at all possible.

"A telephone came to me recently informing me that Secret Service Agent, Earl Wilson, of the Houston office of the Secret Service, was parked near the house at 6107 Tyme Street in Houston which I rent for the purpose of having a location to work and preach in Houston, the place being provided for the purpose of an house of prayer.

"It is therefore possible for me to be picked up again by the Secret Service agent, as three times before this that had happened to me: it behooves me to keep on trying to produce the truth that will prove I am not guilty of any charges placed against me, namely, that of threatening the lives of Eisenhower and Johnson...and, according to a newspaper clipping at hand out from the Houston ~~Post~~, dated November 25, 1964, it seems that now the Warren Commission, plus the Secret Service agents, are accusing me of threatening the life of President Kennedy. This article reads as follows:

'Kennedy Threatened by Two Houstonians. Chronicle Washington Bureau. Washington--In the two years before President Kennedy was assassinated, Secret Service men investigated 34 threats against his life made by Texans.

'Two threats came from Houston--one from an auxiliary deputy sheriff and the other from a woman with a record of writing obscene and threatening letters to presidents since 1947....

'The Secret Service mentioned no names in its report.

'In the Houston case, several heard the deputy sharply criticize President Kennedy's policies--precautions were taken when President Kennedy visited Houston on Nov. 21, 1963--the day before he was shot--to ensure that the deputy had nothing to do with protecting him. At one time, the deputy was heard to say that "Kennedy should be gotten rid of."

'The other Houston case involved a woman arrested twice and committed to mental institutions twice. She was checked periodically by the Secret Service. There is no indication of any action, if any, was taken against her in connection with Mr. Kennedy's Houston visit. Etc."

The above was written scarcely two years ago; of course, even to this date, it may be certain I am checked periodically; as well as being certain if it is at all possible nothing would tend to please both Eisenhower and Johnson than for me to imprison the rest of my life.

One commandment states: Honor thy father and thy mother that thy days may be long upon the earth. What honorable person, believing that both parents had been unjustly charged with things not true, even with the charges made of inherited insanity...which charges not only pertain to me, but would tend to influence my brother and my sisters...as well as my own offspring, would not seek to clear the names of one's parents...even for others' sakes besides mine? And who wants to go down in government records as a writer of "obscene and threatening letters to Presidents since 1947? When that agent, Earl Wilson, testified, and that jury was told that my mother killed her husband and then herself, I asked the LORD to let me prove to the world that such charges were false...thus, in doing so, am I virtual when I seek to bring the real murderer of my mother to justice? the same murderer being the one who ruined my father in 1919!

Now, after 1961, I visited my mother mother, Anne Boynton Ralston, in my aunt's home at 2021 Bennett Street, Dallas, Texas; she was on a hospital bed...although she was Lard of bearing she was very bright...and there was something she wanted me to help her with.

March 4, 1967

Rev. Johnnie Mae Hackworth

(My purpose in quoting the above concerning MacArthur, coupling it with my letter to you of March 29, 1961, is to point out that the LORD, at that time (even as He always does), was working on two ends, if not more. Of course, on March 26, 1961, the date of the newspaper article out of London, I had no way of knowing what was happening there...and had little if any interest in what MacArthur was doing or saying: for I remember at the time I thought he was a wonderful Christian--because it was stated he read the Bible daily--so I was greatly shocked when the LORD revealed to me that MacArthur fulfilled Rev. 13:1-8, and instructed me to write this information to Truman on March 28, 1961.)

Now this is what has prompted this present letter: in the letter to you, dated March 29, 1961, this was what attracted my attention...it just stood out as if written in large, bold print: "After I had mailed that letter (to the local District Attorney), the LORD led me to thinking upon the actions of Mr. Carl C. Booth, then He told me the answer to my ponderings was that Booth is one of the leading communists of our country. I do not know why I had not thought of this before. I had only thought of the long array of evidence I had against him concerning my own personal self and I had a gleaming of an idea that there were other things, but I never of myself thought of him as a communist. I remember I used to wonder where he got all his money from without working, and why his brother (Sumner Booth of Dallas), who won Zero Fists in Dallas, let him do as he pleased, etc., as if he owned the plant and his brother was under his direction, instead of vice versa."

Mr. Hoover, aside from my personal interests and experiences with this man Booth, what if he is a leading communist? I have believed all along that in some manner he would be connected with the plan to assassinate the late President, John Fitzgerald Kennedy, in Dallas.

I think the term "communist" should be more carefully defined as to exact meaning. A "Virginia Miller" (I have a niece by that name) has said: "Before December 23, 1913 WE HAD NO Federal Reserve System--NO World Wars--NO Communist Russia, NO 'So-called' National Debt--NO One World Government--NO One World Court NO One World Bank--NO 'Play Money' Standard."

Instead of confining "Communism" to Russia, then a brand of it to China, I think we should keep in mind that a band of men, called "Jews" went out of New York with Trotsky into Russia and took over the Russian government; it was in 1917 the Czar was overthrown, then murdered in 1918. Fifty (50) years have elapsed since then; and much is now being published about that fifty-year old revolution that has so changed the world. But little is being said about what happened seventy (70) years ago, August 29, 1897 when a group of men met in Basle, Switzerland in their First Congress, calling themselves "World Zionist Organization" and formulated plans for a one-world government, with head quarters to be at Jerusalem, Palestine....a central world government over the "communities" of the world. This plan is what "communism" really is...and Russia was the first country captured. Even now, "London" is "Mother Babylon" where these world planners have long been "holed up" directing many governments over the world...even controlling elected officials of the U.S.A.!

Now we go back to this man, Carl C. Booth, in Dallas about 1917 or 1918, when he was a "motor-cycle cop" and had his hand shot up by a negro man who claimed he caught him with his negro wife...and Booth was "fired" in disgrace from the Dallas Police. (His earlier record is notorious also.) His wife, Nettie Mae Ralston Booth, my mother's sister, persuaded my father, Victor Waason Hackworth, against my mother's pleadings (she was Gertrude Ralston Hackworth), to hire Carl C. Booth in his Hackworth Oil Exchange...and this Booth was in charge when all of us were taken with the flu that killed so many in that winter of 1918-19....my father had secured an oil lease for which he was offered \$3,000,000 cash by a major oil company (the then County Judge, Kenneth Force, Sr. of Dallas, stated this fact to a crowd my Dad addressed in a Liberty Bond Rally where I was present and heard him); upon returning to his office, having recovered from the flu, he was charged with embezzlement (the charges amounted to less than \$600); Booth persuaded mother to have Dad declared insane to escape punishment for embezzlement of many thousands of dollars....Mother believed Booth....my father was taken at once to Brenham, Texas (Washington County) where he had not lived for a number of years, and illegally had a jury rounded up who gave a verdict of insanity as a result of my mother and my father's mother shedding tears, and begging those jurymen to save the family from disgrace....little realizing that what was back of the whole thing was the fight to get possession of my Dad's oil lease. Dad was then taken to San Antonio State Hospital, checked in, released that day and spent some time in the home of his half-sister in San Antonio....the State Hospital gave him a certificate declaring they found him not insane...and he used to show this, saying to others that they could not prove they were not insane...but he could...then produced the paper with all the signatures of the physicians who certified him as "sane."
